**Academic Audit (Academic Session 2022-23)  
Observation and Action Taken**

<b>DEFICIENCY</b>	<b>ACTION TAKEN</b>
The number of publications are too less as per the norms	Publications and faculty credentials have been doubled (approximately) this year.
The Data science subjects taught in BCA & BBA given this some licensed data science software such as SPSS should be procured instead of open-source	Purchased
<b>OBSERVATIONS</b>	<b>ACTION TAKEN</b>
The systems are quite old (i3) which need upgradation	The systems have been upgraded to i5 generation 6.
Lab should have a 3D printer	Purchased
The conference planned for next assessment year should be indexed in WOS/Scopus/ UGC Care Journal	The international conference was organized in collaboration with Debre Tabor University in 2023. Few Papers were accepted for publication in ABDC Journal (ISSN No. 2323-5233).  We have an upcoming international conference to be scheduled for May 2024 and the proceedings would be indexed in Scopus/ UGC CARE.
Need to upgrade indexing of in-house journal to Scopus or UGC Care Journal	We are in process of Scopus Indexing.
